“We keep it fresh and simple. You can use pretty much any kind of potato. I prefer fingerlings or a mix of red and golden. Wash and cut potatoes into chunks. Toss in olive oil, garlic, rosemary and salt and pepper all to taste. Roast in a 375 degree

oven. We like to use our wood fired outdoor oven until they have some color and are cooked through.”

Interested in growing potatoes at your own operation? Respond to this email and we'll send you some helpful information to get you started! Plus, look out for our new educational video series coming next month.
